R. Sarter Project Manager Environmental Restoration DOE/RFFO

NOTIFICATION OF INTENT TO BEGIN FIELD WORK IN OPERABLE UNIT (OU) 14 - MFM-023-94

Action: Notify the Colorado Department of Health and Environmental Protection Agency of intent to begin field activities in Operable Unit 14

As of this date, I have completed the Operational Readiness Review to begin field work in OU 14. Please inform the Colorado Department of Health and the Environmental Protection Agency that field work is scheduled to commence on Monday, August 1, 1994. Activities will begin with the staking of surficial soils sampling locations. Actual sampling will begin on receipt of regulatory agency concurrence with a Document Modification Request to the Phase I RCRA [Resource Conservation and Recovery Act] Facility Investigation/Remedial Investigation (RFI/RI) Work Plan for OU 14 which allows surficial soil sampling to proceed with borehole investigations to occur at a later date. This approach is consistent with the Industrial Area OU Integrated Field Sampling Plan.

Please call me or Bruce Peterman if you have any questions. I can be reached at extension 8624; Mr. Peterman's extension is 8659.

M. F. McHugh

Project Manager - OU 14
